

## PCCW Audio Conferencing fact sheet

Apart from face-to-face meetings, making telephone calls is the most effective and efficient form of everyday communication. PCCW has incorporated conference calls into your workday, so you can respond faster and less expensively. Thanks to our world-class fixed network, mobile capability and international reach, we can connect you and your business associates to a phone meeting from almost anywhere.

Our conference call network enables us to guarantee outstanding voice quality as good as when you communicate face to face. You can connect hundreds of callers in the same conference any time. Simply give us a call to discuss arrangements.

### **PCCW Audio Conferencing offers four solutions for your needs:**

#### Private Plus

With no reservation necessary, you and your assigned participants can hold a conference any time by dialing a permanent number and entering a permanent passcode. *Simple and direct!*

#### Scheduled DIY

Holding a dedicated passcode for individual conferencing, participants can access a conference any time within a booked period. *Added security and convenience!*

#### Scheduled Operator

PCCW's operator will proactively remind and lead you to the conference on time. Our expert operators manage all conference details to ensure your mission-critical conference runs smoothly. *Efficient and personal dedication!*

#### Scheduled Host

To hold a virtual audio event over the phone, a dedicated PCCW MC manages attendance and the rundown for the whole event, while assisting the chairman to preside over a perfect interactive session involving hundreds of participants. *Professional and reliable!*
